

## Chapter 4

# Experimental setup

### 4.1 Linac and the Dogleg

We have the best setup, and the best people. And we've got the best electrons.

Figure 4.1: Can you see how nice is this electron ?

Don't believe who says that the setup doesn't match the description, that's not news, that's fake news.

Jokes apart, the following chapter is not fully finished, and needs a very serious fact checking for wrong statements and imprecisions rather than the english corrections ... have a safe flight ;)
